Inquisitive's New Digital Lessons

1

Part 3 of 3

The Cerrado is a vast tropical savannah, with unique wildlife.

Pretend you are avoiding snakes. Jump in and out of hula hoops towards the person opposite you.

Iguazu Falls is one of the largest waterfalls in the world.

Use a skipping rope to represent the water and skip towards the person opposite you.

Lencois Maranhenses is a national park with sand dunes and lagoons.

Pretend you are in a lagoon. Crawl under a parachute towards the person opposite you.

Activity 1

Core Activity

[Learn about Differentiation with Inquisitive](#)

Time

15 mins

Teaching Notes

This activity is designed to hook the students into the lesson in a physical way. It will require preparation beforehand. Depending on your own environment, this activity can take place either indoors or outdoors. The area needs to be set up like an obstacle course, but the actual equipment may be adapted to suit your circumstances.

It is important that each station is labelled. Print out the facts for each location to add to the sign.

Students are divided into groups and move around the course, reading the fact and then completing the relay activity. Each activity is designed so that each team member will have one turn, but this time can be lengthened or shortened as needed. At the conclusion of the activity, ask students to share anything they remember about the locations.

An Immersive Learning Experience

“

I wanted to reach out and say wow!

I really like the units Inquisitive have created to match the new curriculum, the new set out as well with the interactive whiteboards, how the videos are embedded in the slides and how the teaching sequence is easy to retrieve.

I can already envision the time saving this will have on my lessons this term.

Brooke, Teacher, QLD

TERM 1	TERM 2	TERM 3	TERM 4
History	History	Geography	Geography
Unit 1 LESSONS 1-5 Our Family Story KEY INQUIRY QUESTION What is my family's story and how do I know?
